ASAHI CHIKAI Family

Neurovascular GuideWire

Your dreams. Woven together.
ASAHI INTECC

ASAHI CHIKAI Family

Neurovascular GuideWire

Providing good torque response, support and durability for neuro interventional procedures

ASAHI CHIKAI family of guide wires has been originally developed based on Asahi Intecc's unique set of technologies which accomplished great success in the field of cardiovascular interventions.

Technologies with Dual-coil design using ACT ONE

Employs the ASAHI brand rope coil, which provides torqueability, flexibility and resiliency.

ASAHI INTECC CO., LTD.'s unique technologies in wire drawing, wire forming, torque transmission and coating are utilized to create highly responsive guide wires featuring ASAHI's ACT ONE, dual-coil design.

Key features

Precise torque response

- ACT ONE provides exceptional torque response in tortuous anatomy.

Durable tip-shape retention

- Incorporating with ACT ONE, re-shapable pre-shaped round curve and 90 degree angle enhance tip shape memory and durability.

Angled 90°

※ Available for CHIKAI black

Round curve

※ Available for CHIKAI, CHIKAI black, CHIKAI black 18, and CHIKAI black 14/18 soft tip
